FAQ

Q: When I use Cloakey, will anyone be able to tell which websites I visit?
A: Cloakey Privacy Browser prevents any trace of your browsing activity from being stored on the computer you use it on. The anonymous browser in Cloakey prevents network admins and even internet service providers from seeing your browsing activities.

Q: Do I need to delete my browsing History when using Cloakey Privacy Browser?
A: No, your browser history is not stored to the computer you are using when running Cloakey. In fact, the private browser runs in Private Browsing Mode which does not even store internet data to your Cloakey drive.
